# OUZO

[ˈuːzəʊ]

*Ouzo*, a popular Greek spirit, has its roots in tsipouro, a pomace brandy similar to grappa, which was flavored with anise by 14th-century monks on Mount Athos.

The modern version of *Ouzo* was first commercially produced in 1856 by Nikolaos Katsaros in Tyrnavos. Some argue that it originated in the silk-producing town of Tirnavos, while others believe it comes from the island of Lesbos, specifically in the town of Plomari in the southeast portion of the island.

**The origin of the name “ouzo” is disputed.**

**A popular derivation is:**

**from Italian: “uso Massalia” – “for use in Marseille”**

**from Turkish: “üzüm” – “grape”**

In 1932, *Ouzo* producers developed a method of distillation using copper stills that is now the standard method of production

On October 25, 2006, Greece won the right to label *Ouzo* as an exclusively Greek product.

*Ouzo* is usually mixed with water, becoming cloudy white, sometimes with a faint blue tinge, and served with ice cubes in a small glass.

*Ouzo* can also be drunk straight up.

*Ouzo* is often served with a small plate of a variety of appetizers, Mezedes, simple dishes that tickle the palates, usually octopus, sardines, calamari, olives and feta cheese.

*Ouzo* can be described as having a similar taste to absinthe, which is licorice-like but smoother.
